In fact, some passages are truly incomprehensible: "A high-speed sound closes, and Felt clicked on his language on the Elsa side" (p. You can't choose when and where, which causes problems on the way. The young man's falcon if unfounded optimism is a well-made trait but here it serves its purpose. At the beginning of her school, she resorted to making others laugh and organizing evil for her fun. 55), leaving readers with cringe-worthy, hyperexplanatory phrases, like "The green crystal continued to shine with a weak light in Satella's hand as she held it" (p. And from the long winds, try, "The Subaru brain had already begun to excrete endorphins and was rejecting the pain, which was greater than any Subaru had felt before" (p. This includes, among other things, a reference to the American currency (p. Wait. You could write thesis on the cultural implications of their existence and their common elements. He's already discovered who that killer was, but he only discovers the origin of the curse during this volume. Turns out his only "superpower" is to return by death to a previous point during his life in this fantasy world. As you wonder what your superpower will be, according to the laws of this genre, you realize that this fantasy world offers you only a couple of certainties: defeat and suffering (link for a somewhat stripped compilation of that since the first season of the anime). Shortly after Subaru arrives in that world, he is casually encountering the one who takes for the main heroin and love interest in his fantasy story. In his own words when a disaster occurred during one of the failed races in the first season, "I don't care if any maneuver would benefit me in the future. Felt is a young thief; Satella is a semi-elf magician who cannot lie. Reinhard is a gentleman; Elsa is a sadist and murderer" He wanted that at the depth of his being carried out, when he seized his now comparatively impotent sister in all the things that the sister could no longer do. In part, because he could not understand it because this emotion rose inside him, he spit everything "(p. While he left a konbini, he blinked and found himself in the middle of a populated fantasy metropolis not only by humans but also a demi-human. Many things out of context, but a good summary of the series to that point. To fix, simply condense: "Prope the pain." (Also, "Excrete" is the wrong word. 10). Imperial Medicion Units (p. All attempts to fight throughout his life had consisted of suffering through pain until someone assured him that he could never achieve what he was fighting, due to his lack of talents and other insufficiencies, and that he could renounce (Hide spoiler). Like other colorful characters we have the best REM girl, a servant for the sign in whose mansion the protagonist ended up living. After holding terrible injuries, they have taken to the house of the Margrave Roswaal, and The Emilia Guardian. Buest, the scene tells Subaru's attempt to start (and maintain) a significant conversation without being marginalized. To this end, Re: Zero reads a lot as the first shot of a high school student in the fanfiction: phrases executed and bad edition in protection of characters who disappear and reappear randomly, so as not to say anything about the wildly wild's interactions opposite, written with annoying precise (or, on the contrary, in total absence of presence studied). Re: The zero is very overflowing, badly written and without dramatic rest. He was terrified of going to class, and by the time History began as soon as his house left. 53) He is confusing, regardless of how unbearably obvious that the writer's intention is. In addition, who has put that cursed on him does not allow him "They are coming. While that concept would interweave me alone. I find the psychology of some of the quite interesting characters. It opens for not having done anything with his life, and that nothing had changed in him along with the landscape. The two maids, together with the young Beatrice librarian, are the unique guardians of the prohibited library of the mansion, but their quiet and peaceful days reach a violent end when another death cycle begins! Subaru is the only one that remembers the time that has passed with the people who care, but can save them? She also has blue hair and almost always uses a maid costume, according to the laws of this medium. Another character whose psychology seemed interesting to me is the librarian of the lady's mansion. Why not simply say: "The child was stubborn, but Subaru followed him anyway"? Subsequently, all those who had known in the capital are treated as a couple, a fool of being exploited by information (hide spoiler)]. When the protagonist knows her, she is only looking for a good cause to die. Re: Zero: Start life in another world, whatever the libic of its origin, does not start the capricious adventure, if it does not blind, it affirms that it is in the heart of all dynamics of non-original history. There is nothing redeeming in a story for which the reader must advance in the same scene three or four times, so that the main character, same dense and litterate, can learn the most simple life lessons. At least you can die where I can't see you. "She is also a child with a very festive outfit and has a ridiculous hairstyle, as per the laws of this medium."She told me she was several millennia old, your Honor"! started reading the light novels from this volume because apparently the previous ones divert little from the anime. Subaru relates to the people he meets in this fantasy world by being a jokey weirdo, which charms and disarms some, but ends up causing terrible trouble not only for himself but for others; the worst probably when (view spoiler)during an official meeting of candidates for the throne in the capital, the protagonist, who had sneaked in there, claims to be the main heroine's knight. Cut out the trash. When he reached high school he found out that he couldn't connect with anybody; he couldn't open up about his real self, which was one full of shame and inadequacy, and his joker persona no longer vibed with his high school aged peers. I'm tired of pain, suffering and fear. I move Three and a half. I came across Re:ZERO when the anime started airing back in 2016. I moved on back then, but recently, I don't remember why, I decided to watch it again from the beginning. Due to some lineage she's a pretender to the throne, but because virtually everybody that meets her just sees a reincarnation of that world's Hitler, she's a very naA Ave shut-in with old-fashioned morals who needs to be extremely careful of stepping outside of the mansion belonging to the lord that takes care of her. Almost invariably, these stories are about some Japanese person getting transported to another world, usually set in a fantasy version of Europe during the Age of Enlightenment. Those fantasy worlds tend to feature fantastic beasts that are a mix of Western and Japanese folklore. The main heroine is mortified. In the first chapter, the word "disappear" registers in five consecutive paragraphs (p. The other option is a berserker demon girl in a maid outfit, so no contest there.If you have already le odal nu a odnajeD aAsatnaf ed odnum etse ne atsinogatorp ed nAicidnoc al ed ratursid a av euq eerc y ,adiv elbarems us sJArtA rajed edeup euq odigocerbos jAtse atsinogatorp etse ed otacne led etrap omC .atsinogatorp la etnemejavias aeplog y ,oleud nu a olodnAifased animret orellabac IE .roiretna lortnoc ed oteup nu a atleuv ed odatropsnart res arap olAAs erum atsinogatorp IE .aseurp sJAm ohcum se dadilaer aL .pI "aAdoidem a ehcon ed etnemataidemni Aetlov ehcon aL" ,noc omoc ,etnemelbairavni eugis asozerep arutirse aL .©As euq ol rop nApaJ ed areuf etsixe on oren©Ag etse ,osac reiuqlauc nE .alle ed iakesi nu res euq yah ,olucAdir ogla ne rasnep edeup es is :43 algeR al ed aicitcif nAisrev al se ,elbanjiagui kicmimg adac ed iakesi yahI .adapupma res ,seredosp ed etneuf al ,anamreh us ed onreuc led ogitset euf alle ,serdap sus a odneylucni ubirt us ed aAroyam al a odnansesa Aanimret nAicisiuqnl al a ralimis opury nu odnauc y ,anamreh us a rama ed rasep a arbmos us ojab osoidivne AAcircr meR JAtseuporpI airotsih al ed alumnAĀ arecret al a etnematoritse nat ereihda es rotula le ©Aug rop ratnugerp ajed es rotcel le ),84 .pI "odreiuqiz orbmoh us repmor" omoc ,serapmi sacimAAtana saicnerefer omoc AAs ,odatimil oiralubacov nu ed aicnedive avell euq J,07 .omsAoreh us adacudeni o ,etneiscerp ,etneciter ograbme nis ,sejanosrep sus a ayopa on arutirse al ed dadilac al ,ojenoc ed orejuga le ne odnuforp sJAĀ ,otirse neib jAtse on OREZ ,ER ,891 .emias ,saleyon orejilugnam ed satinret sal ne odirevnoc ah es euq omiAqel oren©Ag nu ed iakesi ed sazar saremirp sal ed anu se airotsih atsE ,selanigiro zul ed saievon sal ed s9Avart a resei a yov ,arona rop somem ol rop y ,adaropmet adnucs al noc aAd la yotsE ,arutirse alam se arutirse alam aL ,secnotne es ne ozih ebuTuoV ed emina nu ed kagpic euq oediv SOTUNIM 8 NE oreZ,eR atsiromih le rev saArebed etnemelbaborp ,srellops sol natropmi et on o emina led adaropmet aremirp al a ataler ejasap led dadilsuac aZ ,Aartx e al ),orilb etse ne sohcum yah lauc le edI osozAagne Behavor so instinctive and natural, it seems a total waste to narrate. 181) and, "When Feel's legs began to tremble while he was running, he shook his head to try to deny the disorder of the thoughts that pierce him" (p. Try to help her recover some stolen badges, just to meet a killer. The author/translator should clearly have used "secret" in this case). Variety is also problematic. I thought the program had gone through the usual collapses that happen with many anime series, in which some introduced elements completely destroy the tone, balance and flow of history, and could also go on. The irrational behavior of the character certainly does not help. He managed to survive only a few days within the mansion only to be killed by a curse, but also by a previously unknown assailant. Re: Zero is not a good book. It is supposed to be a novelization of the intricately structured game style native to RPG Gameplay, a tribute, as well as an improvement of the bifurcated or road-based narrative that drives visual novels, as well as PC and console games. All of which, to sum up, involve a game of cat and mouse theft, recovery of elements, murder and savior grace, respectively. The irony revealed later that many of these characters would have successfully completed their day with little or no damage. If Subaru did not interfere, it is played as a joke; therefore, it undermines, without want, it seems that the existence of the whole book. In re: zero, Subaru is not a competent individual, a fact that hinders both the integration of the reader and the inner dynamics of history. 112): "It was cut about 70 percent of the way through the Subaru abdomen with its other hand" (p. . . more is a possibly immortal being that despite having nedneit nedneit nosim sodnum sol odunem a ,etnatreconesD )011 .elbativeni rolod le rativae arap elibseceni y etnatsid nAAtca aroha ,odiconoc ah euf saredecrep sarutairc sahucm a odanoicifa he videogames, or have videogame features such as status menus or shit like that.In Re:ZERO, the Japanese person who gets transported is former class clown / current hikikomori Natsuki Subaru. I very much enjoyed the first few episodes, but in one of them they introduced not only one of them clichéAd cat bois, but also went into fantasy world politics. What? Although the episode in which I bailed was the worst of the series so far, there were great things to come. No story is so primitively authentic as to be above the error of the untalented or the lazy. The protagonist realizes he fucked up and this is getting serious. This volume starts after (spoilers from the story up to this point) the protagonist has already been killed like four or five times. He starts fights he cannot win; he ignores warning signs and imperils others; he refuses, ultimately, to look before he leaps in everything he does. Incidentally, this excerpt has nothing to do with sexual attraction. As he finds himself thrust into a nameless fantastical realm, whose cities are populated with all sorts of magic, animal-people hybrids, and more, Subaru asserts his role as a hero-in-the-making, faults and all. 56) and "Feeling the hard texture of the ground against his face, he realized that he had fallen facedown on the ground" (p. 20). He carries self-aware commentary throughout the entire series so far, making references to the usual narrative tropes and even video games, that none of the characters around him understand. Subaru latched on to the first pretty face that helped him in a moment of need: Emilia, a name that probably sounds better for a woman in Japanese, who is a magic user born a white-haired half-elf in a world where the biggest catastrophe was due to a white-haired half-elf having destroyed half of the population a few hundred years ago. Regarding what blocks of story that are passable, it would behoove the reader to note they are 130 pages into a 231-page book. She's a sweet, caring girl and all, but choosing her over Rem would be like dating your own admittedly very beautiful, mostly clueless and naA Ave mother. One of the official knights of the realm calls his bluff, shaming him about pretending to be an equal to people who had trained for the rank their entire lives. Rem's final thought was one of relief, as in "it finally came off". He gets fatally wounded, and because he couldn't warn the main heroine properly, she gets killed immediately. These sequences are the first instances in the story so far in which the protagonist has to complement his numerous shortcomings with the help of the much more powerful people around him, not only to solve the issue at hand, but also to convince them of his good intentions in a world where betrayals and contract killers are around the corner. As usual in such series, people are divided between whether the protagonist should follow a romantic route or another. Her thoughts were a mess and her legs shook as she ran." Done.Overwriting is the book's largest crime. . .more Three and a half.I came across Re:ZERO when the anime started airing back in 2016. 179). It is inescapable. The protagonist is a good guy with no particular talents and who couldn't measure up to his dad (shown in the second season). 66) Other times, the writing is so awkward and protracted, it is nearly impossible to read the scene correctly: "Subaru had tried to get things moving again and change the mood, but Subaru only got turned on by both girls, and failed to get anywhere" (p. 182); and lastly, with too many problems to count, is the increasingly misleading, "Felt didn't understand what she was feeling, but because those feelings were in her heart, she kept running about. It was the big hit of that season. 113), which neglects to mention the character is holding a knife: "The target was [Satella], and the strike was aimed to drive Knife in his chest "(p. To stop the curse, he needs to be a friend and recruit the help of some people who are not sideways, and then venture into an infested forest of monsters to bravely face some demons. In response to Subaru's actions. Not at all. Librating from his death loop in the real city, Subaru wakes up in an opulent mansion, being attended by the twin raised Ram and Rem. The book reads as if an Otaku The individual movements of the individual characters in the individual scenes of the anime tyulus were more generated by the difficult situation of Subaru Natsuki, a great abundant of the school, is not particularly new, interesting, interesting, interesting, interesting, or unrankable. The first "dark night of the soul" happens during episode 18 of the first season, when (see spoiler) Subaru, after having died a couple of times trying to stop a plot for Aces for Aces Incidentally, everyone who cares in that world is given up and asks a character that he likes to only run away from everything and start a life of Thei R has in another país.
